

RESIN BASED INDUSTRIAL FLOORING

Polyurethane Flooring

UREKOTE 210A

UREKOTE 210A is a two component, solvent based, aromatic polyurethane durable coating that is used to protect against abrasion, corrosion, chemicals, and provide anti-skid protection. UREKOTE 210A offers high tensile strength and good flexibility. Will not crack, peel or warp when permanently bonded to a properly prepared surface.

Benefits

- Excellent abrasion resistance
- Fast set times
- Chemical and stain resistant
- Excellent scratch resistance
- Low odour-used in occupied areas
- Good gloss

Applications

- Aisle Ways
- Assembly Plants
- Bakeries
- Basement Floors & Walls
- Bottling Plants
- Break Rooms
- Cafeterias
- Canning Plants
- Car Washes
- Cells
- Chemical Processing Areas
- Chemical Pump Areas
- Chemical Storage Area
- Church Floors
- Classroom Floors
- Educational Facilities
- Food Plants
- Fork Lift Areas
- Health Care Facilities
- Hospitals
- Kennels
- Kitchens
- Manufacturing Areas
- Marine Surfaces
- Meat Preparation Areas
- Mortuaries
- Photography Processing Areas
- Power Plants
- Printing Plants
- Produce Preparation Areas
- Pools
- Ramps
- Research Facilities
- Rest Rooms
- Restaurants
- Secondary Chemical Containment
- Semiconductor Plants
- Sewer Plants
- Shops
- Shopping Centres
- Shower Rooms
- Stores
- Show Rooms
- Supermarkets
- Veterinary Facilities
- Warehouses
- Laundries
- Loading docks
- Locker Rooms
- Nuclear Plant Floors
- Offices
- Machine Shops
